

Kathleen Caruana Salafia

Choreographer

Her contact with St. Francis School B'Kara started very long ago as a student. Some twenty years later, she chose teaching as her profession in the same school.

Her teaching responsibilities changed over the years. She taught Year 4 and Year 6 students in her initial years. She was also responsible for the general school activities such as the direction and choreography of the Annual Prize Day Performances, Christmas Concerts and Sports Day Display.

During the last three years her teaching was focused mainly on children with Special Educational Needs. She helps students within our school who have learning difficulties and supports their parents as well. She works in constant collaboration with the School's Administration, Learning Support Assistants and Class teachers. As from this year she is also responsible for the introduction of the Phonics Method in the early classes.

Ms Kathleen was also involved in the choreography of the songs found in 'Ilhna Ferrieña 1', which was launched way back in 2000. She feels that through actions and movements, children feel more enthusiasm on the stage and can transmit the actual message better to the public. Currently Ms Kathleen is also working on a script to be used later on this year for a Musical based on the life of St. Paul, his voyages and Evangelisation.
